Sub: Request to reset Application Status

Dear Sir,

This is to bring to your kind notice that we have selected a wrong option in the registration form. We are still undergoing the process of getting registered by Ministry Of Tourism Govt of India. While applying for Kerala Tourism registration we misread the Govt of India Approval Column as a registered Company under Govt. of India and selected "Yes" option instead of "No" due to which our application process is on standstill.

Kindly request you to reset our application form so that we can upload all the necessary documents as per the requirement. We sincerely apologize for the inconvenience caused from our end.

Thanking You

Issac Francis
