

AN OFFLINE BASED GUIDE APP FOR VISITORS

The idea is of an Offline oriented app because foreign tourists may not be able to access network here.

#1:driven by simple map outline with the location of some important spots highlighted by red spots accompanied by small pop up photo.on clicking user will be guided to#2 following details–1) images 2)star rating,3) food and accommodation facility,4)visitors' review, 5)guides available, 6)transportation 7) online map 8)atms 9)foreign exchanges etc. . App may also speak out the name of the place

Any location can be added to my destinations. Route map connecting the destinations are created which can be printed or sent directly to guides at tourism centre who can guide the visitor.stay and transportation can be provided at ktdc hotels and taxies.

Note: here after #1 means refer #1 above

Menu bar will contain' my destinations' ,search option which leads to @#2.and also 'about kerala' tab

first page has a kerala outline(@#1) with about15 most important pop ups. If the user selects any districts instead of these 15 places an enlarged outline of the district is shown with all tourist spots in district @ #1.

Page2 is for heritage and 3 for nature and scenic places .

Page 4 is photo gallery from where visitors can directly choose favourite destinations to add to my destinations.

Page 5 is a calendar with info of fest and holidays

Page 6 is the guide page with following tabs :1) guides at your escot (details,no. and online link to connect to a cental call centre from where the visitors are connected to local guides based on info of 'my destinations').2)confirm booking (book taxi online,book rooms online). 3)tourist packages(info of cost, places,contact no. etc)4)never to miss(events,food,festivals)5)official site.6)instructions 7)emergency contact numbers,8)learn some important Malayalam words or language translator.
