

The app consist of three main feature apart from the basic need of the tourism app.

- **Interactive map.**

- 1) In this option,the map with GPS enable feature give the current destination of user in Kerala.
- 2) It automatically gives the travelling distance of nearby tourist spot in kms.
- 3) The map will also show the image of travelling spot as the user zoom in the map,on tapping the image,the user will get the detail of the destination and ways to get there.

- **Sharing option.**

- 1) This is unique feature of all,This will be activated only if the user is spotted in Kerala through the GPS of their device.
- 2) It will have give share photo on social media,share the spot on social media,Give feedback to Kerala Tourism.
- 3) If **Sharing photo** option is selected then,the camera of the device will open as ask to click the photo and share it on social media such as Facebook,Twitter,Google+,Instagram,etc leading to promotion of Kerala Tourism.
- 4) If **Sharing spot** is selected then the GPS will track the position of the user and share it on social media.
- 5) In this option the user can give their **Feedback** to the Kerala Tourism.

- **Push notification through the calendar of the device.**

- 1) The device will synchronized with the calendar of the device and accordingly it gives notification of favourable spot according to season.
- 2) *For Eg:* If there is April month on my device and I open this app from my device then i will get the notification like “**It is best time to visit Folk Dance in Kerala now**”.

Apart from all this the app will contain:

Splash screen displaying the Logo of Kerala Tourism for approx.1-2 sec.
