

FARES

As Kerala is God's own country millions of tourists from around the world visit our state . Many international tourists will not miss to admire the beauty of Kerala. As host we must give due respect to them according to the popular saying 'Athithi Devo Bhava'. Therefore I suggest that the mobile app provide details of fares from one tourist spot to another or from tourist spots to hotels or from hotels and tourist spots to railway stations, airports and bus stands depending upon the mode of transport whether it is a auto, taxi or any other. The tourists will not fall a victim to cheating and Kerala tourism will earn a good name because the app will provide the exact as well as reasonable fares. No one will dare to cheat the tourists by charging them unreasonably. I hope this app would inculcate confidence in the minds of tourists and Kerala tourism would become a role model to other tourism departments.
