

TITLE : KERALA → THE ABODE FOR YOU

A mobile application for Kerala Tourism should depict how close KERALA is to the tourists. It should have the following features

- Particular Tabs for each area of interest like Culture, Picnic spots, cuisines etc with sub tabs defining and routing to the area of interest.
- History of Kerala and its tourism specifying its earlier links with foreign nations.
- A link of the application with Google map and GPS which starts from the Airports to the selected destinations giving suitable options of journey
- The application should specify an approximate travel fare via various modes to the selected location.
- The details of Hotels, with specific Indian cuisine and small and good restaurants should be listed after accepting the affordable prices from the user.
- Videos and photos of important destinations should be linked with the list
- The application should be capable of leading the tourist to the places he/she likes by accepting the areas of interest and listing the places suited to it.
- The urgent contact numbers like nearby hospitals, police stations etc should be listed once a sight is selected.

The 'ABODE FOR YOU' application will help the tourist to have a journey through Kerala by themselves from the Airport back to the airport. It will help to avoid the middlemen who are instrumental in reducing the number of tourists to Kerala. It will show them how Kerala is different and the reason why it should always be a spot once they land in India.
