Kerala Tourism Android App ideas are given below:

1] Minimum use of data plan.

- ✓ Application must use less KBs/MBs of user's internet plan.

2] Give enough details of Kerala State.

- ✓ Application also give basic details of Kerala (Like: History, Culture, etc.).
- ✓ Also give map of Kerala which denotes (highlight) the main travel area.

3] Live map tracking of Kerala.

- ✓ With this, tourist can search any place in Kerala. And also allow detail how to reach from destination A to destination B.

4] Give Hotel/Motel booking system.

- ✓ With this, tourist can easily find & reserve hotel/motel to take rest.

5] Give Simple chat (for slow connection) & Video chat (for speedy connection) facility for any help.

- ✓ Simple chat for 2G users.
- ✓ Video chat for 3G & 4G users.

6] Give Hospital & Police station details, which is nearest to tourist location in Kerala.

- ✓ With this feature, if any medical help need to tourist then with this they easily reach to the hospital.
- ✓ Also give Police station details (contact number) for any other problems.

7] Support in any version of Android OS/i-Phone/Other (if possible).
