App idea-As the app has to be to promote Kerala tourism, hence it will be a business app. So first the cost of developing an app will have to be decided" the better the app the more the revenue". An elaborate and impressive is the focus to attract tourist. First we should gave an attractive, stylish and flashy icon. So as it attracts maximum Tourist. Various packages, schemes should be up to date. There should be icons for-whats New, photos, screenshots, reviews, packages, discounts offered n contact. To show the details of various tourist spots animation should be used accompanied by sounds. N Kerala will be flooded with tourists. Spots like the cruise, the backwaters on a houseboat, get an ayurvedic treatment, attend a temple festival, snake boat race, chilling on the beach, mountain ranges, amazing mural paintings, tea plantations, a live kathakali performance etc. This app promote Kerala tourism as "Kerala is one spot destination"
