

Know Me

This is app to know about a particular place. The App will give whole idea about the place such as what are the special things in those particular areas like famous Temples, Restaurants, Food items, Places and Beach etc.

Also people can enter details about these things. They can share their views about the place. And we can provide a Map with routes to that place. Also we can provide bus routes and timing so that it is easy for them to move to the places.
