

mobile app ideas

- * The app can have [animated view of Kerala](#)
- * We can use [waterfall video as the background](#) and [different icons for different stuffs](#) like temples,restaurants, hotels, tourist sites
- * The app must contain the [map of Kerala](#)
- * The app must have all the [lodges and best hotels](#) for which the tourist will look for after coming to Kerala
- * The app can contain [contact nos of tourist guide](#)
- * The app can also contain the [list of places for tourist to visit](#)
- * It can also have details about [shopping sites in Kerala](#)
- * The app should specify which is the [best season to visit Kerala](#) to enjoy the most
- * We can [provide some special vouchers](#) if they book via the app or provide some extra value added advantages as we al know people look for profit and advantage in using anything :)
- * It would be nice if each of the [description contains a picture of how beautiful Kerala is by default](#)
