

ENGLISH-MALAYALAM LANGUAGE COMMUNICATOR

Description:

The main problem faced by most of the tourist is communication. The English to Malayalam Language communicator mobile application will be helpful to the tourists by converting their conversation from English to Malayalam and vice versa wherever and whenever required.

Consider a scenario, where a tourist looks for an address or wants to enquire about nearby tourist places. By using this English to Malayalam Language communicator mobile application the tourist can understand and get the directions for his/ her queries easily. The steps are as follows:

- Initially, the tourist has to install the English to Malayalam Language communicator mobile application on his / her mobile.
- When the tourist wants to enquire about the nearby places or an address or anything, the tourist has to record his / her query or question in English using this mobile application.
- Now the English to Malayalam Language communicator will convert the queries /questions to Malayalam.
- Then the application would playback the recorded question in Malayalam.
- Now, the tourist has to record the reply of the person who is helping him /her.
- Then the mobile application converts the specific reply from Malayalam to English. Then the conversation is played back in English for the tourist thus helping him / her to understand the conversation easily.

Thus, this English to Malayalam Language communicator mobile application helps the tourists in their travel to Kerala.
